

Tekweld Registrations:

FDA: 12032979770

FDA Medical: 3004965821

DUNS: 02-907-7754

FDA Labeler Code: 71160

Tekweld is fully committed to providing the highest quality and safest products for our clients. Applicable products meet New York State, Federal standards and FDA regulations and laws.

The coatings and decorating/printing inks used on our products, have been fully tested and do not contain chemicals at concentrations that would require a California Prop 65 warning label. Some Safe Harbor Level limits have not been fully established by Proposition 65 for all materials used. We can provide (upon request) copies of test reports from accredited, third-party testing labs to verify Proposition 65 compliance for our items.

Even though we produce and ship products to buyers or end-users outside of the state of California, (where less stringent safety regulations are required), every product we produce maintains full Prop 65 compliance labeling laws if applicable to the product. Click here for the full list of all products that apply. ([Link](#)) Please note some of these products are subject to change if under the Safe Harbor Level limit.

If you have any questions, please do not hesitate to contact us.

For a plain language version of the Proposition 65 regulations, please visit:
www.p65Warnings.ca.gov.
